

# Wheel balancer Invento VB 780

The **Invento VB 780** is a new machine designed for handling the wheels of **trucks and passenger** cars with a lift with a lifting capacity of up to **200 kg**.

## Description

---

**Invento VB 780** wheel balancer for **trucks and passenger** cars. Equipped with the most important elements and functions that meet the expectations of professionals. The maximum weight of a balanced wheel is **200 kg**.

### LED screen

A clear screen means comfort and clarity while working on the device.

### Measuring arm

Measurement of the distance from the shaft and wheel diameter is carried out using a measuring arm, which significantly reduces the time of the balancing operation.

### Balancing programs

Italian intuitive software and a wide selection of programs, including **3 ALU programs**, allow for precise selection of weight placement variants.

### Automatic stop

The software makes it possible to stop the wheel at the **point of imbalance**.

### Laser

The Invento VB780 has a **laser pointer** that accurately indicates the place of sticking the weight at **6 o'clock**.

### **Wheel lifter**

Lift with a wheel load capacity of up to **200 kg**.

### **Brake**

Invento VB 780 is equipped with a **automatic** for greater stability during weight assembly.

### **Truck adapter**

Included with the machine is a centering **adapter for truck** wheels.

### **Autocalibration system**

The user can adjust the measuring system of the machine on his own in the event of suspicion of incorrect indication of the place and size of the **unbalance**.

### **Noise**

The balancing machine has a special motor that **does not emit too much noise**, which contributes to greater comfort during operation.

### **Standard equipment**

- Truck adaptor
- Weight-loading tongs
- Calliper

## Technical data

---

Rim diameter	10 - 28"
Rim width	2-20"
Maximum wheel weight	200 kg
Balancing accuracy	1 g-10 g
Time of measurement	9/20 s
Shaft diameter	40 mm
Rotation speed	80-200 rpm.
Device weight	220 kg
Dimension	1600x1100x1480
Power	400 V, 50 Hz
Guarantee	12 month

Warranty: 12 months
