

Phoenix ADAS Mobile Euro Package (E)

Built for Precision and Maximum Coverage

The Phoenix ADAS Mobile is a versatile, foldable calibration frame built for both passive and active ADAS systems. It takes less than 30 minutes to set up, allowing technicians to perform calibration anywhere. Compatible with any of TOPDON's Phoenix Scanners, it empowers professionals to work on more modern vehicles with ease and precision. The Euro Package enhances your calibration capabilities with 16 targets of AVM, NVS and Lidar systems for European vehicles, along with a Doppler simulator, radar cone target, and ACC reflector. This comprehensive package equips shops with a more powerful and versatile setup, enabling them to service European car brands on the road today.

Features

- Totally Mobile**
 The Phoenix ADAS Mobile features a collapsible design for convenience, easy storage, and unmatched portability. With foldable arms, detachable lifter and base, you can easily carry and transport this calibration tool.
- Quick Set-Up**
 With this tool, professionals can calibrate ADAS systems from an auto shop, a parking lot, or even at a client's driveway. Its unmatched portability and convenience makes your business more productive and profitable.
- Unmatched Precision**
 The high-precision 5-line laser and the cross-line laser device will assist you in positioning the ADAS calibration tool with exactness. Featuring a multifunctional base with 360-degree swivel wheels, it provides smooth and flexible movement, making adjustments during calibration both easy and stable.

Specs

- The Phoenix ADAS Mobile comes safely packaged in a Wooden Case (1415*1075*540mm; 55.71*42.32*21.26inch).
